

KCC 4846 (K-C 16,993)  
PATENTREMARKS:

Claims 70-82, 94, 96-98, and 103-104 are withdrawn herein. Claims 83-93, 100-102, and 105-106 will be pending upon entry of the amendment.

I. Objections to the Drawings

The drawings are amended as set forth above to comply with the changes suggested by the Examiner in paragraph three of the Office action of March 2, 2004 and to correct topographic errors. The original drawings were previously amended only to formalize the drawings (e.g., line thickness, numbering, etc.). No substantive amendments are believed to have been made.

In view of the above, applicant submits that the drawings as now presented are in proper form for acceptance.

II. Objection to the Specification

Based on the Examiner's comments in paragraph three of the Office action, it appears that the amendment to the Abstract previously submitted in Amendment B was not entered for failure to comply with 37 CFR §1.121. Accordingly, applicant herein amends the Abstract to change "multiplayer" to "multilayer" and to improve the technical format of the Abstract. The specification as now presented is submitted to be in accordance with 37 CFR §1.121.

III. Restriction Requirement

The Office action requires restriction to one of the following:

Group I - Claims 70-82, 94, 96-98, and 103-104; and

Group II - Claims 83-93, 100-102, and 105-106.

KCC 4846 (K-C 16,993)  
PATENT

In response to the restriction requirement, applicant hereby elects Group II, corresponding to claims 83-93, 100-102, and 105-106, without traverse, for continued prosecution on the merits. Claims 70-82, 94, 96-98, and 103-104 have been withdrawn from consideration without prejudice to the patentability of these claims. Applicant reserves the right to file a divisional application directed to the subject matter of the non-elected claims.

Respectfully submitted,
